Reporta actividades de pesca ilegales

To improve the quality of fisheries dependent data to complement fisheries independent data to better understand changes in stock abundance of commercially important species within LHRA

Next Step

- Stakeholders request: cap on # of licenses
- The catch log book compliance requires enforcement
- Digital catch log platform is advance
- Fisher folks are retaining legal representation; Regulatory Agents and Managers should ensure Compliance Officers are train in case file and court procedures
- Adaptive management – Science guiding management decision
- Dialogue with Stakeholders should be continuous
- Fisheries Bill?
